

SHE LIKES BAD BOYS

From 2009's "What This Country Needs"

Verse 1

I pulled up to the bar she was getting out of her car I said man I like what I see

So I followed her in tried to catch her eye but she never even looked at me

She was standing there when some guy with long hair and leather pants asked her to dance

As he held her tight and he kissed her lips I saw her definition of romance

(CHORUS 1 and 2)

She likes bad boys – the kind that live life on the edge

She likes bad boys – the kind with real long hair

She likes bad boys – the kind her mama warned her about

She likes bad boys – problem is, bad boys never settle down

Verse 2

He got up the next day said he was on his way but we really ought to do this again

Now it's been two weeks he didn't call or write I guess it's poor choice in her men

She seems to find the kind that don't hang around at least not for very long

Instead of bikers and cowboys she needs to change her type to a man that deals in stocks and bonds

(CHORUS 3)

She likes bad boys – the kind that live life on the edge

She likes bad boys – the kind with Wranglers a real tight pair

She likes bad boys – the kind Willie warned mama about

She likes bad boys – problem is, bad boys never settle down

She Likes Bad Boys
