

HEARTACHES FOR HEADACHES

From 2009's "What This Country Needs"

(CHORUS)

**I'm trading heartaches for headaches
I can't do it any other way
Getting over you is taking too much time
It's either heartaches from thinking
Or headaches from drinking
So I'm thinking that I'll drink you off my mind**

Verse 1

Well the first 2 weeks alone I found it hard to breathe
Waiting by the phone in a house I could never leave
Then a friend came by with Black Label and it doctored my thoughts
Now I feel much better just as long as I take my shots

Verse 2

Some say this life is a nowhere road for me
But so far I haven't passed your voice or your memory
As far as I can see I really have it made
I'll probably hurt tomorrow but I'll live another day
