

IT'S YOU I THINK OF

From 2009's "What This Country Needs"

Verse 1

Our star shines above me reminding me of you
Remembering the time we stared at that old yellow moon
Now your love has gone away – I know you've been untrue
Ain't it funny how one little star still reminds me of you

(CHORUS)

**It's you that I think of - bring a smile to my face
It's you that I think of – make the tears fall like rain
It's you that I think of – when I'm here all alone
Yeah it's you that I think of - you're the one I love**

Verse 2

One song on the jukebox brings a tear to my eye
It tears me up and it hurts me deep inside
Last time I saw you – we said we were through
Ain't it funny how one little star can remind me of you
